

# Archangel Raphael Prayer

Archangel Raphael,

I connect to you now to guide my soul to your healing light. Align my energy with the divine source of love and light, and send high energy frequencies from colors and sound to balance my energy chakras, awaken me to divine truth, and deepen my understanding of unconditional love to heal the heart.

I trust that you know which areas I need healing within emotional, mental, physical, or spiritual realms. I ask that you keep sending me healing light as I need healing and teach me how to use my intuition to bring in my own healing energy through the power of faith.

I know that healing is a process for which each soul moves through in an individual journey, and I welcome this healing. I am an awakened soul to the presence of your spiritual guidance which may direct me to a healthy path for my soul.

I wisely make choices in this life, and I navigate towards activities, relationships, and experiences which bring in the highest frequency light energy. Direct my soul away from old habits and energy patterns which do not align with my soul path. I open my heart from this day forward and trust in my healing.

Thank You. Love and Light.
